Glencore Graduate Internship Programme 2026/2027 For Group Assurance

Description

Glencore is recognized as one of the world's largest globally diversified natural resource companies, engaged in the mining, refining, marketing, and recycling of essential raw materials. These materials play a pivotal role in the ongoing transformation of energy and mobility that society is striving to achieve.

The Glencore Graduate Programme is designed to cultivate the next generation of professionals within the organization. Successful graduates will have the opportunity to explore various business functions through internal rotations, thereby advancing their careers within a performance-driven culture. Participants will work closely with industry experts and are entrusted with significant responsibilities, leading to the acquisition of diverse skills.

The Group Assurance function provides independent and objective assurance to enhance governance, risk management, and control practices. This function supports the Board and senior management in safeguarding stakeholders, assets, reputation, and the sustainability of Glencore.

Glencore's Group Assurance function is seeking highly motivated graduates to join the Graduate Programme. This role offers a distinctive opportunity to gain practical experience and establish a foundational knowledge of internal auditing within a leading natural resource company. Participants will gain insight into Glencore's global operations, encompassing industrial assets, commodity trading, and corporate functions.

Responsibilities

As a member of the Group Assurance team, you will engage in tasks related to the planning, execution, reporting, and follow-up of internal audits and advisory activities. Comprehensive training and mentorship will be provided, enabling you to build a strong foundation as an internal audit and assurance professional.

Qualifications

We seek candidates who are currently enrolled in or have recently graduated with a Bachelor's or Master's degree, preferably in Accounting, Finance, Business Administration, Engineering, or Economics.

Job Benefits

- Exposure to diverse business functions and real-world responsibilities.
- Mentorship and training from experienced professionals in the field of internal auditing.
- Development of critical skills necessary for a career in internal audit and assurance.
- An opportunity to contribute to a leading global organization.
