NTT DATA Internship Programme 2026/2027 For Young Talent

Description

NTT DATA is pleased to announce the Young Talent Internship Programme for 2024/2025, conducted in partnership with the MICT SETA. This internship offers an opportunity for emerging professionals to gain invaluable experience that will serve as a catalyst for their careers.

As an intern in this program, participants will immerse themselves in a professional work environment where they will acquire practical skills and establish meaningful professional networks. The internship is designed to provide exposure to daily operational tasks, including the management of service requests, troubleshooting of technical issues, and support of essential business processes. Interns will also benefit from access to premier learning platforms and a comprehensive curriculum that features sought-after international certifications.

Responsibilities

Interns will be engaged in the following activities:

- Assisting in the management of service requests and providing technical support.
- Troubleshooting and resolving technical issues encountered by users.
- Supporting various business processes to ensure operational efficiency.
- Participating in training sessions and utilizing learning platforms to develop new skills.
- Collaborating with team members to deliver quality service and continuous improvement.

Qualifications

Candidates must meet the following criteria:

- Possession of an NQF Level 5 or higher qualification or certification.
- No prior work experience is required.
- South African citizenship is mandatory.
- Candidates must be between the ages of 18 and 27 years.

Skills and Competencies:

Successful applicants will demonstrate:

- Exceptional attention to detail and effective communication skills.
- A customer service orientation and a commitment to delivering quality outcomes.
- A passion for continuous learning and improvement.
- Strong teamwork and collaboration skills, coupled with effective time management abilities.
- An analytical mindset capable of identifying issues and defects.
- Familiarity with relevant tools and methodologies applicable to their area of focus.
